

How to Locate and Generate Subscriber Token

Please note that subscriber token expires every 90 days and new token must be generated.

- Log in to the WebLEM with the administrator ID and password (attached instructions provide you with the steps to reset your passwords, if needed)
- Click on “MY PROFILE” from the dropdown menu
- Click on “Generate Subscriber Token”
- Copy / Paste the newly generated token into your estimating software
- If you have a question, please ask your account administrator within your company for assistance.
